

# PIMP MY BOAT

---

Fill in your TEAM NAME above:

Now fill in:

**TeamMembers**

**Motto**

eg. sail, blail and bail some more

**Theme Song**

eg. Eye of the tiger

**Crazy Salute**

you have to see it

**Boat Name**

eg. The Ultra Hyper Mega Super Boat 9000

## **Secret Handshake**

you have to see it

## **Team Logo**

Draw the symbol of your team  
(practice first)

## SAIL DESIGN

On a blank sheet, draw the shape of your sail design below.

1. Remember to draw the spars (mast, boom etc) first to make sure it won't fall apart. Use ropes to take any tension that could rip plastic bags.
2. Remember the bigger and more giant square like the sail, the faster it will be downwind. So no coin sized sails but you can still do crazy designs like diamonds and smileyfaces.
3. A number of little sails can be better because if your one big sail rips, (and it will eventually) you'll have no sail at all.
4. Fold duct tape over the edge of the sail to line it with a non rip protection thingy. This'll make you sail last 10 times longer in heavy winds. But go easy on the tape, it's pricy enough!
5. Have a quick way of de- powering the sail eg. A mainsheet o halyard. Otherwise it may blow off the trailer.
